Professional Summary

Results-driven React Developer with over six years of experience specializing in frontend development, UI/UX design, and AI-powered applications. Proficient in building high-performance web and mobile applications using React.js, React Native, TypeScript, and modern UI/UX principles. Passionate about creating scalable, intuitive digital solutions that enhance user experiences.

Founder of **RhogTech**, a company focused on developing innovative digital products in healthcare, fintech, and AI-driven applications.

Skills & Technologies

Frontend: React.js, React Native, Next.js, JavaScript, TypeScript, Tailwind CSS

State Management: Redux, Zustand

Backend & APIs: Firebase, Prisma, REST, GraphQL, Axios

Build & Deployment: Webpack, Vite, Git, CI/CD

UI/UX Design: Figma, Adobe XD

Cloud & Databases: Firebase, Supabase, PostgreSQL, MongoDB

Other: AI Integrations, Performance Optimization

Projects & Experience

RhogTech (Founder & Lead Developer)

- Spearheading high-performance digital solutions in healthcare, fintech, and AI applications.
- Leading UI/UX design and frontend development for all company projects.

TaskBuddy Lite (Live: taskbuddylite.com)

Technologies: React.js, Firebase, Tailwind CSS

- A task management web app designed for productivity and collaboration.

- Features real-time task updates, reminders, and team collaboration tools.

Annika Pro (Medical Platform, Ongoing)

Technologies: React.js, Next.js, Supabase

- A medical platform enhancing patient management and healthcare workflows.
- Features secure authentication, AI-powered diagnostics, and real-time data visualization.

Moment Flicks (React Native App, Ongoing)

Technologies: React Native, Firebase, Redux

- A mobile app for sharing short videos and photos with AI-powered auto-captioning.
- Optimized for fast performance with a minimalist UI on both Android & iOS.

Nebulax (Document Conversion & Social Media Content Blocker, Ongoing)

Technologies: React, AI, Cloud APIs

- AI-powered document converter transforming files into various formats.
- Social media content blocker to filter unwanted posts across platforms.

Fresh Market (Farmers' Marketplace with Chat & Voice Notes, Ongoing)

Technologies: React.js, Firebase, Cloudinary

- A digital farmers' marketplace enabling buyers and sellers to negotiate prices, chat, and send voice notes.
- Built with minimalistic UI/UX, authentication pop-ups, and fast performance.

Why Me?

- ✓ 6+ years of experience in React.js, React Native, and frontend development.
- ✓ Proven track record in AI-powered and high-performance applications.
- ✓ Strong UI/UX design skills, creating clean and user-friendly interfaces.
- ✓ Expertise in building scalable, high-performance web and mobile applications.
- ✓ Passionate about digital transformation, innovation, and problem-solving.
